VCPAC calls on Minister of Education to Return Administrative Savings

VCPAC has sent a letter today to the Minister of Education recommending that he reverse the recent decision to cut funding to districts pursuant to his Ministry's directive to find administrative savings.

“In our district, we have sought and achieved efficiencies in our administrative costs for many years, said VCPAC President, John Bird. “The recent cuts will return these savings to the province instead of providing resources for our classrooms as we intended.”

To view the letter, visit the VCPAC website at www.vcpac.ca.

The Victoria Confederation of Parent Advisory Councils (VCPAC) is the official representative for Parent Advisory Councils in School District 61.
